# What is a **CREDIT UNION?**

Credit unions are full service financial institutions and the profits are invested back into the communities we serve, not to institutional shareholders. Credit unions take deposits, issue loans, and provide a wide array of other financial services for both personal and business needs. As a member-owned and cooperative institution, credit unions provide a safe place to save and borrow at competitive rates. At Advance Savings Credit Union you are always a person and never a number.

In 2015, credit unions were amongst the top lenders to small businesses.

*2016 Credit Union Community & Economic Impact Report*

Credit Unions ranked #1 by small & medium sized enterprises.

*(CFIB-Battle of the Banks research report)*

In 2015, 5.7% of credit unions pre-tax income went to community donations compared to 1% on average for the big banks.
